A cordon of military has been placed at Chatham prison in consequence of a threatened attempt to release the prisoners, who include some Fenians. The convict establishment at Chatham is built to contain between 1,700 and 1,800 convicts, and it is always full, a portion of the number being sent from time to time to the convict prison at Borstal, where they are employed on the works in connection with the new chain of forts to be erected for the land defences of Chatham.

The coroner's inquiry into the causes of the disaster on board the Thunderer ended in a verdict of Accidental Death, to which is appended a long rider expressing the opinion of the jury as to the circumstances under which the explosion occurred. They, however, stated their belief that the boilers of the Thunderer were of excellent material and workmanship, but desired that the Admiralty should cause further experiments;to be made into the construction and strength of flat-stayed surfaces for the benefit of the public generally.

The French Government is making steady progress in the matter of education, as is shown by the fact that in less than half a century the budget for this purpose has increased in amount forty-fold.

The autumn manœuvres of the German army promise this year to be very interesting, as various improvements in the service lately introduced will be tried for the first time. The British army will be represented by General Lord Napier of Magdala,who has been specially invited by the Emperor, Col. Dillon, and Captains Napier and Fitz-George.

Gervais, who was recently executed on the Place de Roquette, Paris, for burying his mistress alive, died a terrible death. The spring which sets the falling axe of the guillotine in motion would not work, and the knife failed to fall at the moment. The doomed man tried to withdraw his head, which, when the axe fell, was severed in two, instead of the neck.

Sir Michael Hicks Beach has replied to Mr. Butt's letter respecting the presence of a detective at a dinner of the Home Rulers. The Chief Secretary observes that the detective, who was unarmed,had no authority to go there, and went into the room out of mere curiosity.

The Gladstones are rich—very rich. Their father,it is said,left each of them half a million of money. And they know how to take care of it. The "Birmingham Gazette" says that the Right Hon. W. E. G., "the people's William," lately wrote to one of his constituents at Greenwich—expressing his views on Triennial Parliaments—on a post card!

Mr. Herry Chaplin's intended marriage with Lady Florence Gower, daughter of the Duke of Sutherland, is exciting a good deal of interest. Mr. Chaplin is one of the younger Conservatives,and if he could only have been induced to give up the turf for politics, might before this have attained to high office. It will be remembered that he was to have been married to Lady Florence Paget, daughter of the Marquis of Anglesey, and that she, choosing to exercise the lady's privilege of changing her mind, went off at almost the last minute before the intended wedding with the young Marquis of Hastings, whom she married, but whom she could not save from that career of ruin which for a time made even the most reckless of our "jeunesse doree" pause. Mr. Chaplin is 36 years old; Lady Florence Gower is 21. This will be the first occasion on which the Gowers have married into a Conservative family.

It is announced that Mr. F. Cavill will make another attempt to swim across the Channel, and has returned to Dover for that purpose. He does not feel any ill effects from his late swim, and says he is as strong as ever.

The malady known as "dumb madness" has taken hold of the bitch pack of the Essex hounds, and the whole of the pack has been destroyed. About the beginning of last June a few cases occurred, and as soon as the symptoms manifested themselves each of the hounds was destroyed. During the last fortnight the disease broke out again and with greater violence. After consulting with the veterinary surgeon of the pack and the huntsman, the master was compelled to have the remainder of the pack shot. This was done on Tuesday, and thus the whole of the bitch pack, generally admitted to be one of the best in the kingdom, was sacrificed. As not one of the male hounds has been attacked it is hoped they may escape. The kennels are constructed on the best principles on a splendid situation in Essex, and it is impossible to trace the origin of the attack.

All disputing over the Balham case is not finished yet. Mr. Broadbribge, the coroner's officer, is at variance with the Treasury upon the following matters: Mr. Broadbridge has paid for the exhumation of the body of Mr. C. Bravo out of his own pocket, as the coroner has no fund from which the expenses could be paid. He also paid for telegrams and notices to witnesses. Upon the close of the enquiry he sent in an account to the coroner, who refused payment, and referred Mr. Broadbridge to the Treasury. In reply to his application the Treasury Department state that his demand cannot be entertained. The result is that Mr. Broadbridge has placed the matter in the hands of a solicitor, and we shall probably hear more of the dispute. The jury are also discontented. For their services during the whole of the enquiry they have received 12s, being less than 10d a head, and there is not much probability of their getting any more.

Steam Book and Commercial Printing.

At the BRITISH COLONIST office three steam power presses are kept constantly in motion turning out the best class of printing at the lowest possible rates. New styles of type are received by every arrival. Call and see specimens.

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to and other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort street, and sold by all the principal dealers.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Province.

PROPOSALS FOR CONSTRUCTION.

THE GOVERNMENT OF CANADA EXpect to be able on or before

JANUARY, 1877,

TO INVITE

Tenders for Building and Working

The Sections between

Lake Superior and the Pacific Ocean,

under the provisions of the Canada Pacific Railway Act, 1874.

This Act (after reciting that it is expedient to provide for the construction of the work as rapidly as it can be accomplished without further raising the rate of taxation) enacts that the Contractors for its construction and working shall receive LANDS, or the proceeds of LANDS, at the rate of 20,000 acres, and cash at the rate of $10,000—for each mile of railway constructed; together with interest at the RATE of four PER CENT., per ANNUM, for TWENTY-FIVE YEARS from the COMPLETION of the WORK, or any further sum which may be stipulated in the contract; and the act requires parties tendering to state, in their offers, the lowest sum, if any, per mile on which such interest will be required.

Copies of the Act, Maps showing the general route so far as at present settled, the published reports of Engineers, and such other information as is now available, can be seen at the Canadian Emigration Agency, in London, England, and at the Public Works Department, Ottawa.

This intimation is given in order to afford to all parties interested the fullest opportunity of examination and enquiry.

FISH AND FISH OILS.

"Constant dropping," it is said, "will wear a stone." We hope that frequent reminders on the part of the Press and Government of the Dominion will arouse the United States Government to a sense of the contemptible position they occupy amongst the treaty-making nations of the world in consequence of the strained interpretation they have seen fit to place on one clause of the Washington Treaty. By that Treaty it was provided that fish and fish oils from Canada should be admitted free into the United States. In the cases of Prince Edward's Island and Newfoundland it was stipulated that when those colonies joined the Confederation they, too, should be admitted to all the privileges as if they had been members of the Confederation at the time the Treaty was drawn. Strange to say—although Sir John Macdonald assisted in the framing of the treaty, and notwithstanding that British Columbia was then on the eve of joining the Dominion,—no reservation was made in her case, and the United States Government has since refused to allow her to share in the benefits of the Treaty. To whatever cause this shabby and unparalleled treatment may be attributable we do not care to enquire. It is enough for us to know that the Pacific Province did not receive that consideration at the hands of the High Commissioners she had a right to expect; and that the blunder is being perpetuated by the Washington Government in a spirit of meanness unworthy so great a nation. It is said there are shortsighted persons who seriously imagine that they can starve Columbia into Annexation, and that acting on their advice the American Government refuses to perform a simple act of justice towards us. Well, men who think that way have surely read history with but little profit. When the Reciprocity Treaty between Canada and the United States came before the American Senate the *quidnuncs* of the body declined to prolong its provisions because, as they said, they wished to "starve Canada into joining the Union." Several years have passed since the abrogation of Reciprocity, and how much nearer is Canada to Annexation? There is absolutely less prospect now of a political alliance with the United States than ever. So, too, with British Columbia. There was never a time in her history when there was as little feeling in favor of Annexation as now. Instead of drawing nearer to Washington the Province is pulling in an opposite direction. Ten years ago there was an open and undisguised movement at Victoria in favor of Annexation. Now, although some may threaten Separation, (Lord Dufferin says they don't mean even that!) no one hints at Annexation. That is the last thing thought of. The Carnarvon Club would go to pieces in a week were it to announce Annexation as one of its objects. Could a market be found in the States there would be a large and increasing demand for the product of our fisheries, and our public men—both here and at Ottawa—should never cease their efforts until the United States shall have been brought to do an act of simple justice to the Pacific Province by admitting her to all the privileges enjoyed by the rest of Canada under the Washington Treaty.

HOP CULTURE.

The low price that ruled last year for hops discouraged some of our most enterprising growers, and the quantity raised on the Island this year is in consequence smaller than usual. Hops of last season's growth were sold at ten cents per pound, a rate lower than the cost of production. Sseveral of our extensive growers have raised no hops during the present season, and we understand that in California, Oregon and Washington Territory the production was also light in anticipation of low prices. As it happened, however, the hop crops of England and the Continent have proved almost entire failures and those of the Eastern States and Canada are below the average. A natural result of the limited production is that hops are in request, and the few Island growers who put in crops are realizing enhanced prices. Nearly the entire production of Saanich has been sold at 19 cents; and it is expected that there will be a still further rise, as English buyers have found their way to California and are bidding high for the crop. The climate and soil of Vancouver Island are well adapted to the growth of hops. Those raised within 25 miles of Victoria are highly esteemed and bring a better price at San Francisco than the California article. It will require more than one year's full crop to make up the deficiency caused by the present scarcity, and our growers cannot fail to realize handsome profits from them for next two or three seasons.

CORRESPONDENCE FROM CASSIAR.

The Season's Work.

Graphic Description of Fort Wrangel.

EDITOR COLONIST:—Too many men came to Cassiar mines this season, consequently a good many will leave disappointed, and a crowd of those who did come would leave the best mines ever discovered disappointed. They had no experience of mining and the season is too short and things generally too expensive to take lessons in experience here.

The old claims on Dease Creek paid very well this year and their owners gave employment to numbers of men who would have been in a bad fix only for this. The claims that were opened on Thibert Creek the last two years did not disappoint their owners this season. Among the successful claims I may name the Rath, Collins, McQua, Shearer, and Coquette. I think I might count the success of each of these

BY THOUSANDS.

Then the numerous claim owners who will count by hundreds; then the many claims that have been discovered this year on this creek—among the number Midbow's, at the mouth of Berry Creek, paying from

SEVENTY TO NINETY OUNCES A WEEK

Steadily this season. I have been up Thibert Creek lately and from the prospects I have seen in some of the hill claims discovered this spring, namely, the Lewis and Thickson claim, the Canord Mahony claim and in a bench claim close to the mouth of Boulder Creek, and in bench claims above Berry Creek, I have no doubt satisfactory evidence will be given before the fall that bench and hill claims on Thibert Creek will afford

PROFITABLE EMPLOYMENT TO OWNERS

For years to come. That there are some rich claims on McDame Creek and the surrounding creeks is an established fact and claims have been abandoned in this locality that can be worked to advantage and will pay when the price of provisions will be brought to reasonable rates.

To use a miner's expression, some hard old cases in the way of mining disputes came before the Gold Commissioner this season. He seems

SCRUPULOUSLY JUST

In his distribution of justice. His decisions in all cases gave satisfaction to the mining population. He also acquired the good-will of the Thibert Creek miners, for previous to this season they were obliged to go to Laketown—a distance of 13 miles—to record their claims. He put an end to this shameful way of treating the miners by sending a person once a week on the creek to make the records. But it is understood here he represents the present Government and is therefore willing to do all he can for the miners.

Now, as I have devoted an hour or so to giving you this news, let me ask you a question: Why is it that Cassiar miners who pay a large sum in the way of taxation to the Province and to the Dominion have not the right to representation in the Legislative Assembly of this Province?

I am, Sir,
Your obedient servant,
A MINER.

CASSIAR, Sept. 4, 1876.

EDITOR COLONIST:—I left Laketown on the 3rd of Sept. late in the forenoon and crossed the twenty-mile lake—Dease—in two hours and eighteen minute in a small well-built sail-boat. There were only four persons on board. The day was charming though stormy. Even to the miner who could not count his gold by the lb. it was a pleasure to see our little boat whizzing through the big waves of the ruffled waters of the lake, blue and bright. I stopped at the Lake House that night and must say it is the best kept house on the road. The bands of cattle by the overland route had just arrived close to this house, their owners also—Hoey & Victor. Gannon's band was to be up in a day or two.

From the Lake House I rode leisurely to Telegraph in two days and a half. During this ride I met Judge Gray, Mr. Fisher and their party. They would get to Laketown on the 5th. The trail is in

SUPERIOR ORDER.

The result is packing is four cents and a half per lb. less this year than it was last, but from the supply not being equal to the demand provisions in the mines were dearer than they were last year. From Telegraph to Glenora Landing I came by canoe; thence, to that centre of civilization Wrangel, by the steamer Beaver. Here I had to stop for 10 days. This place is nicely situated; the broad sea before it in its ever changing moods, now calm and bright and peaceful in its gentle ebb and flow; now dark and foaming and thundering around the pine-clad hills that limit its progress; and so it changes. Wrangel has two restuarants—I should have said three, but one is a steamboat, or was, and is now a hash-house and squaw-dance-house. There are three or four fine stores with large stocks of goods in each. You could see young men and men that were not young, pay to the storekeepers $12 for a suit of clothes to go to the dance I call this paying the piper. I thought I could enjoy a rest at this little village after coming from the Arctic mines where hard work and hard air, without fresh vegetables or fresh beef, were a portion of the fare daily; but I might as well expect rest shut up with a crowd in one of the darkest gulfs of eternity with Paradise in view.

For a mile on either side of the village or Fort numbers of houses belonging to white men and Indians are dotted along the shore. The hills rise abruptly at the back of the Fort and these houses—the trail goes by these houses and through the village, and oh, the stench! I think while I was here five hundred of the human family were "around." The mountains to the rear of the village are about a hundred and twenty yards from the stores. A flume put up in miner's fashion to one of the mountain streamlets would supply the thirsty and the villagers, besides one of the stores, with pure water. But the only water they have is rain or the water that trickles through the filthy underwood at the back of the houses.

THE FORT OR BARRACKS

Is on high ground and walled in. The gate of the Fort is 300 feet from the woodpile where the soldiers get their wood. They have a mule and cart of their own to haul the wood. The road to the gate is up hill, but never a rock was taken out of that 300 feet of a road. I would not sell my mule to those boys if they gave me $500 for him. There is

NO WHISKEY FOR SALE

Here, but at times you would see soldiers or sentries staggering. Perhaps they have too much to do. They can't pick the rocks out of the road, their hours for sleeping may be limited, or it may be, they are not prevented from going to the hush-house steamboat balls.

The Grappler came in here on the 14th of Sept.; the Gussie Telfair on the 18th. The second mate on this boat fell down the hatches shortly after she arrived. It was thought the poor fellow would not recover. A young man aged about 27 years, supposed to be a native of Canada, died at Wrangel on the 14th. The Gussie left for Sitka on the 21st. Judge Gray and his party had arrived here on their return from Cassiar and will go by the Gussie to Victoria.

I was at church at Wrangel on Sunday—the Indian church—there is no other. I was sorry I did not understand their language. There were as many white men as natives at church, always something new. It was to me a novel thing to see an Indian preacher who had learnt to look sincere and earnest, and to dress as simply but as well as any poor curate, and hear him

PREACH IN CHINOOK,

So that the white man as well as the Indian would glean a lesson from his sermon. He read his text in English from the Bible, and both races behaved themselves in church like Christians and people of taste.

It seems rather little in a great power like the American Government to compel its custom-house officer at Wrangel to rob the Indians. It is hard, too, on the C. H. officer, who is, from every account I hear of him, an honest, kind-hearted, obliging gentleman. He thinks he does his duty. I think his duty is robbery on the part of the Government. Indians born at Wrangel and Alaska Territory go to Cassiar, British mines, and make gold by their labor. Two of them made small piles, and each of these on their way from the mines, in their generous mood, by in British territory from 30 to a 100 pairs of blankets, and carry them in their canoes to Wrangel to give a great potlatch to their friends; but the custom house officer seizes the blankets and confiscates them as the property of the United States Government. Duties were not paid on these goods. This transaction occurred nine months ago. Will that gallant and noble-hearted officer, General Howard, who is at the head of military affairs in Alaska Territory, and who takes such an interest in the natives, permit oppression and share the crime? I suppose the Indians are not represented in Congress.

I am, Sir,
Your obedient servant,
BLACK STAR.

Nanaimo.

[Free Press.]

A young daughter of Mr. Joseph Rundle is sick of smallpox. This is the first and only case in Nanaimo, but nevertheless wild rumors without foundation are afloat as to the spread of the disease among the Chinese and Indian population.

The Bishop of Columbia held service at St. Paul's Church on Thursday evening, and a meeting was subsequently held in the school-room with the view of establishing a parochial association and mission fund of the diocese.

The new and powerful steam tug Tacoma called at Nanaimo on Sunday, and the steamer Leonora, with an excursion party on board, left on Saturday last for Baynes Sound, returning to port on Monday.

The bark Revere arrived at Departure Bay on Saturday under sail from San Francisco. She returns with a cargo of Wellington coal.

THE CARNARVON CLUB. — Our contemporary is jubilant over what it supposes to be the aim and object of the Carnarvon Club, viz: the destruction of the Provincial Government. Well, we don't want to divulge Club secrets; but if our contemporary had been present at the meeting of Thursday evening he would have found that the present aim and object of the organization is to wipe him and his paper out of existence. Yes, the indignation of the members is thoroughly aroused at the come-buy-me course of the *Standard*, and we are authorized by one of the officers to make a small wager that the Provincial Government will outlive our contemporary. Who will take?

TEAM OVERBOARD.—Yesterday morning a valuable team belonging to Mr. M. Wells, whilst hauling a load of lumber near the foot of Johnson street, was carried over the wharf by the impetus of the load acquired in the descent toward the wharf. The wagon lodged against the stringer and the horses remained in a precarious predicament suspended by their harness and broken pole. Fortunately assistance was at hand, and the harness was cut so as to allow of the animals falling into the water, when, following instinct, they swam for the opposite shore and were recovered without sustaining any injury.

FUNERAL.— The funeral of the late Thomas Phypers took place yesterday afternoon from Masonic building, Government street. The hearse, which was preceded by a band playing the dead march in "Saul," was followed to the burial ground by a large number of Masonic brethren and a numerous attendance of friends and acquaintances. Deceased was esteemed by all those who came in contact with him during life, and by honesty and integrity won the respect of many friends.

FOR NEW WESTMINSTER.—The steamer Enterprise sailed at 7½ o'clock yesterday morning for New Westminster with the Mainland Mails, and the following passengers: — Drs. Barnard and Thompson, Messrs. Ellis, Westgarth, Adam's, Kent, and several others.

BLONDIN.—The Hero of Niagara has arrived in Victoria and will appear at the Theatre Royal to-night.

DANGEROUS.—The attention of the authorities responsible is hereby directed to the unsafe condition of the Ross Bay bridge, as one approaches Mr. Brodie's from Clover Point. The road is a favorite drive and the bridge is in an unsafe condition for horses to cross.

FOR PUGET SOUND.—The favorite steamer North Pacific resumed her place on the Puget Sound *route* yesterday morning, and sailed hence for Port Townsend at ten o'clock, carrying the mails as of old.

ESQUIMALT BRIDGES are not the only places where the *debris* or Victoria's recent reception habiliments are permitted to remain an eye-sore and an element of danger.

THE old woman who lived in a shoe with all her children will appear with the Royal Marionettes to-night.

C. P. R. S.—H. J. Cambie Esq., Acting Deputy Engineer in chief of C.P.R.S. was at Quesnelle on Thursday, *en route* for this city, having completed a tour of inspection of the various camps in the field this season.

LOOK out for the wonderful animated skeleton—alone worth the price of admission—To-night, and Saturday matinee.

City Council.

A meeting was held last night. The Council were notified of the purchase of a lot for Deluge Engine Co. for $2000. The Fire Department were asked to extinguish the fire among the rubbish on Government street. A motion to allow certain parties to occupy shanties on public streets was lost.

FINANCE—A DEAD LOCK.

The following accounts were passed to the Finance Committee for payment if correct:—Labor on the streets $122,75, R. Copeland $49, S. Duck 2.50, Hayward & Jenkinson $15.00, S. Kelly 1.75, E. Marvin 19.50.

After a long discussion the Mayor refused to put a motion for the erection of additional lamps on the ground that the treasury is entirely deplete, and the council then went into committee of the whole to consider the question—Coun. Gowen in the chair.

The Mayor (much excited)—Well since you have forced this matter on me, I tell you that the corporation is bankrupt today! That it has not got one cent and that it has to pay $4000 for sinking fund into the bank next month! We can't get a dollar from the bank to-day! Improvements which have been promised have not been made and now you insist on my putting a motion to incur fresh expense. I tell you I won't do it! Why run further into debt! I, as Mayor, have to bear the whole brunt of the thing, and when I am on the hustings next time the finger of scorn will be pointed at me because I could not manage the finance of the city properly. I say that I have to bear it all—the whole onus of disgrace—and yet you Councillors ask for a lamp here and a lamp there! Absurd! I tell you. This matter of finance has been kept quiet long enough, but I will not be a party to putting a resolution for further expense. The public shall know it all now, so do as you will! I won't come out at the small end of the horn!

Coun. Williams asked why the Mayor had not stopped expenditure long ago if he knew the city to be bankrupt. The idea of the Mayor getting stubborn over the erection of two lamps was absurd. He (Coun. W.) held that as soon as the Mayor got stubborn it was time to take the matter in their own hands. The Corporation he maintained is on justas good a standing now as ever and could command $12,000 any moment to pay the $4,000 falling due next month. (Laughter.)

Coun. Vigelius—Coun. Williams knows better that that, where will he get the money unless he mortgages corporation property? He knows there is no law to compel a citizen to pay taxes if he is determined to pay interest only. There is no law to sell property for taxes and they are coming in very slow and are likely to do so.

Coun. Trounce—As for the corporation being in debt that is no more than every firm in the city is. A firm often is in debt, but has assets far more than sufficient to cover liabilities although it may be difficult to realise *instanter*. The two lamps are a very small question for the Mayor to take his stand on and I hope the chairman will put the question at once.

Coun. Marvin said that the present muddle had been arrived at simply because the financial statements ordered had not been laid before the Council.

Had the Council known exactly how matters stood all the time, they would not have been working in the dark. They know very well that although a large amount of taxes were due, they had no means of collecting them and although the balance due for taxes looked well on paper, what was the use of going into further expenditure if that balance could not be realised.

Coun. Allatt—I am in favor of borrowing $20,000 at once and giving the citizen who *does* pay his taxes the benefit of the revenue he subscribes.

The Mayor—Well, I can only tell the Council that so long as I occupy the chair as Mayor I will not put a motion incurring expense until I know where the money is coming from to meet the expense.

The Chairman then put the question for the erection of lamps on the corner of Fort and Moss and corner of Government and Discovery streets. The motion was carried as follows: For—Williams, Allatt, Trounce, Gosnell, (4). Against—Drummond, Vigelius, Marvin, (3).

Coun. Allatt then moved that all Corporation work be stopped to-morrow (Saturday) night. He was sorry that the financial condition demanded such a course. Seconded by Coun. Williams and carried.

Coun. Marvin—Then of course that motion stops the erection of more lamps, and I move that no money be paid out other than for salaries and incidentals until a financial statement be laid before the Council.

The Mayor—I second the motion. If the Council had investigated financial matters they would have seen that it was foolish to go to any expense without first knowing how to meet it.

Coun. Allatt—If you knew all about it, it was your duty to have explained the matter to the Council some time since.

Coun. Trounce opposed the motion as he regarded it only a "smart" attempt to stultify the former resolution passed.

Coun. Marvin defended his position, and even if in the minority he intended to avoid if possible running the Council into further difficulties of a financial nature.

Coun. Williams moved in amendment that the Clerk request the Gas Company to erect the lamps forthwith. Carried.

The Committee then rose and the Chairman reported the resolutions which were approved.

The Council then resolved itself into a Board of Health.

PASSENGERS BOOKED.— The following passengers were booked last evening at the agent's office, to sail for San Francisco per steamship City of Panama this afternoon: C. Wests, C. Wright, Miss Spaecika, Mrs. and Miss Underwood, J. R. Olsen, Jas. Madden, H. Ehlers, A. Anderson, J. Lough, and Wm. Lowe.

THE whole scenery of Royal Marionettes changed to night. A new programme will be presented.

TO SPORTSMEN.—Just received from Eley Bros. London, central-fire cartridge cases $1 per 100; to be had of Henry Short, gun store Fort street. 1w*

A FEW tickets for MRS. McDONELL'S raffle remain unsold, and will be thrown for at Frank Richards' saloon this evening.

REMEMBER! — Entire change of programme to-night.

The Royal Marionettes.

There was an entire change of programme last evening. The Animated Skeleton is one of the most wonderful productions of the age. A skeleton waltzes out on the stage, takes himself to pieces—the arms, legs and trunk dancing off on their own account—and then puts himself together again; all this takes place in full view of the audience! In one of the acts a cannon is fired off at policeman Sullivan, who is blown to "smithareens." "The Babes in the Woods" was a most affecting and beautiful act. The figures are quite lifesize, and the robin redbreasts twittered about the stage, picking up the leaves and covering the children with them. The ascension scene was very beautiful, and the transformation scene with which the entertainment closed, was dazzling in its gorgeousness. This afternoon there will be a matinee to which all clergymen will be admitted on presentation of their cards. The children of the two Orphanages are invited. Each lady attending the matinee will be presented with a book of words, and children will also receive a book.... This evening the last performance will take place. Go one, go all.

THAT WATER.—We are informed by the Water Commissioner that the stoppage in the water supply was caused by one of the main pipes running through Van Allman's field breaking. The fracture is attributed to the peat having been burnt away from under the pipe by a bush fire which has lately run through that neighborhood, and the pipe thus deprived of its support broke from its own weight and that of the contained water. A gang of workmen, under the superintendence of Mr. Preese, are how engaged in repairing the damage, and will work night and day; but very little hope can be held out that the water can be again turned on until this evening at the earliest.

FROM THE EAST COAST.—The steamer Cariboo-Fly arrived here at 4 o'clock yesterday afternoon from Comox, Nanaimo, and way ports with the mails, freight and following passengers:—Rev. Bishop Hills, Mr. and Mrs. Aikman, Mr. and Mrs. Prevost, Mr. and Mrs. Tinney, Mr. and Mrs. Jay, Messrs. Holmes, McTeigh, Hern, C. Morton, Cole, Morley, Charley, Taylor, Williams, Patrick, Phillips, Burke, Penman, Mackenzie, Morrison and Toleson.

FLEMING CUP.—Competition for this valuable trophy, at present held by Lieut. Wolfenden, will take place to-day at Clover Point, 7 rounds each at 300 and 600 yards ranges. Should the present holder succeed in carrying off the prize a second time it will become his individual property.

A MAN, while laboring under a fit of temporary insanity, leaped through a show-window of his shop on Government street yesterday, and was severely cut about the head and face by the splintered glass. The police took him to prison for safe keeping.

REMEMBER the matinee Saturday afternoon.

PUT TO DEATH.—The horse belonging to Mr. R. Horth, which was so badly injured a week since by a severe fall, was shot yesterday to put an end to its sufferings. The poor brute's death was instantaneous.

PERSONAL.—Amongst the passengers by the Glenora from Cassiar was Edward Kelly, Esq., special correspondent of THE COLONIST at the diggings for the past two years.

NOT ARRIVED. — Neither the steamer Gussie Telfair nor the Grappler had arrived at Nanaimo when the Cariboo-Fly left there yesterday morning.

EDITOR COLONIST: —While greatly sympathising with the principal of the High School and, consequently to a great extent, agreeing with "A Parent," I submit whether the martyr did not act too hastily in resigning—did not meet martyrdom half-way, so to speak?

It appears to me that had he remained at his post as long as he could, without compromise, all parties would have been in a more favorable position than they are now to contend for the great principle involved. As it is he may be almost said to have surrendered without ever firing a shot.

LAST NIGHT'S DISPATCHES.

EASTERN STATES.

WASHINGTON, Sept. 28.—A rumor was in circulation to-night that Attorney-General Taft had resigned or was about to resign. This cannot be officially denied as neither the President nor Judge Taft are in Washington, but there are reasonable grounds for asserting that the report has no foundation.

EUROPE.

LONDON, Sept. 28.—A dispatch from Belgrade to the *Daily News* says the Russian General Noveschoff has assumed the command of the army of Ibar. A great battle is imminent. Gen. Tchernayoff has been requested to come to Belgrade by the Russian Consul and has refused because he intends to make an attack on the Turkish line.

A special from Cathara says a report comes from an authentic source that the Montenegrins are unwilling to conclude peace without extensive concessions of territory by the Turks.

News from Constantinople is satisfactory. The Porte is inclined to grant the peace conditions, but seek a form more compatible with its dignity. Only the prompt acceptance of the conditions as they stand can prevent further complications. The position appears very precarious and the Porte has been made fully aware of the fact.

A Berlin dispatch to the *Times* says the Czar is adverse to war, but he has permitted warlike addresses; Austria has left no doubt of its position.

A correspondent of the *Times*, commenting on Gen. Suwaroffes mission to Vienna, remarks that this is the emissary the Czar sent last autumn on a mission to Belgrade to dissuade the Servians from going to war. Although the effort was fruitless, the General then conducted his mission so well that he became a popular person in Belgrade. Therefore the Czar feels prompted to act directly in the affairs of Servia, and thus place himself in a position antagonistic to interests of Austria. His present envoy is a proper person to communicate his views to the Austrian Empire between whom and the Czar a strong sympathy exists. This personal communication has political importance irrespective of contents of the letter which the envoy brought.

VIENNA, Sept. 28.—A telegram states that the Russian Consul has intimated to General Tchernayoff that his resignation would prevent a complication and it is reported Tchernayoff has refused to resign.

LONDON, Sept. 28.—The *Times* correspondent at Belgrade telegraphs that there has been nothing done here to-day, although excitement is not so great as it was. It is believed by the Russians that the conditions of peace proposed by the Powers will be rejected by the Porte. If they are, the continuance of the war is certain. It would be madness for Turkey to reject the advice tendered her. The Russians and Servians are hardy races and can endure winter campaigns: but the Turks cannot. The Servian government will preserve silence on the question of making Prince Milan king; but the advocates of Servian royalty, who are the majority, declare the proclamation must be made with due solemnity in Belgrade. In such case the representatives of the powers would probably be instructed by their Governments to retire from Belgrade.

A telegraphic special from Belgrade to *Daily News* reports England has expressed officially to Servia her surprise at the course adopted in the face of the fact that Servia first sought England's good offices. It is represented that the Russian party do not object to a long armistice.

Capture and Punishment of Cannibals—They are Attacked in Caves.

Reports have been received from Capt. Knollys, dated 31st of July Na Vesgeriki, Nabutautau. On the 21st Capt. Knollys left Na Veigaraki with a portion of his force to attack some caves occupied by the Nalawanisa tribe. Arriving in the neighborhood of the caves at midday on the 23rd, Capt. Knollys found it very difficult to obtain any accurate information as to the position of the entrances thereto, and a Nadrau man who had left Na Veigaraki a few days previously, to examine the country, had been caught, killed, and eaten by the cannibals. The position of one of the entrances was, however, discovered, and Capt. Knollys managed to lead his men within 500 yards of it before the cannibals were aware of their approach. On catching sight of the police the cannibals made for the caves and the police followed, hoping to effect an entrance before the enemy had recovered from their; surfine; they were, met by a steady fire from the loop-holed rocks, and two of them fell mortally wounded. finding assault impossible, as the cave had to be entered on hands and knees, Capt. Knollys ordered a blockade, which was kept up for six days and nights, when some of the cannibals gave in, and soon afterwards the whole of the remainder surrendered.

On Saturday last the Star of the South arrived, having between sixty and seventy prisoners on board. These are some of the insurgent mountaineers, and while waiting the decision of the Executive as to their fate, they have been lodged in Totoga Jail.

NEW ZEALAND.

From the "Southern Cross" we give the following:

A time of trouble is coming for those colonies, the wherefore of which is based on the price of wool. Our latest telegrams show that since June of last year, wool has declined no less than 30 per cent. This is a state of affairs which is really alarming. The wool exported from New Zealand in 1875 reached nearly 54½ millions of pounds weight, of the declared value of £3,-398,155.

Auckland is rich in that valuable mineral called manganese.

The great meeting of natives of the Tauranga district has terminated, and the natives have decided to remove all obstructions to the opening of the whole of the Kaimai district for gold prospecting.

A revival in mining matters has taken place in consequence of a series of valuable discoveries in the Ohinemuri district, and the progress which has been made with the erection of crushing mills there.

In business matters there is but little activity, and considerable caution is being exercised by investors. The Auckland Customs returns show a decline, and the revenue for the June quarter was but £48,000, as against £59,000 for the corresponding quarter of 1875. The imports for the same period were £198,816, and the exports £113,620, being a decrease of the former of £75,000 and of the latter of £4,000 on the June quarter of the previous year.

NEW SOUTH WALES.

From the Sydney "Herald," we give the following:

The second session of eighth Parliament of New South Wales was closed on Tuesday, the 22d instant.

There is less than usual to record in connection with mining matters for the past three weeks, and the reports from the various mining districts will be found to refer almost solely to the yield of gold, and the progress of the work at various points in the search for the precious metal.

VICTORIA.

The Colonial Secretary of New South Wales sent a telegram to the Government stating that he had learned that it was the intention of the French Government to release 600 Communist prisoners from New Caledonia, and he thought that all the colonies should join in a protest to prevent their landing.

A PAIR OF WEDDED MISERS.—Three miles from Newark, New Jersey, have lived for many years an aged couple, who were miserly and penurionus in their habits to the last degree. Two months ago the husband, who had been a sufferer from dropsy, began to fear that he was likely to die, and his love of life proving stronger than his love of money, desired to send for a physician. His wife, not being moved by the same fear, saw in it only a wasteful expenditure, and refused to consent. After suffering in a very weak condition for some time, however, he managed to communicate with a neighbor, who sent for a physician. The latter gave him no hope for recovery, but made a simple prescription for his relief and directions as to his diet. The wife did not deem it wise to spend money on a man who was already practically dead, and refused to purchase either medicine or proper food. The neighbors, however, procured both and furnished them to the dying man at his bedside for several weeks. A few days ago the miser died, and his wife refused to send for an undertaker or allow the friendly neighbors to do so, and the body remained uncared for during the terrible hot weather and until decomposition had set in. Finally, a number of women who were acquainted with the wife insisted that the body should be buried, and, sending for an undertaker, they proceeded to lay it out. Selecting good under-clothing for this purpose, they had the corpse partially dressed, when the wife interfered and pulled the garments from the body, declaring them entirely too good to be put under the ground, and substituting old and worn ones in their places.

THE FOLLOWING IS AN

EXTRACT FROM A LETTER

dated 15th May, 1872, from an old inhabitan of Horningsham, near Warminster, Wilts:—

"I must also beg to say that your Pills are an excellent medicine for me, and I certainly do enjoy good health, sound sleep and a good appetite; this is owing to taking your Pills. I am 76 years old.

TESTIMONIAL.

CASSIAR DISTRICT, B.C.,
June 12th, 1876.

Jas. L. Crimp, Esq.,

DEAR SIR:—We, the Subscribers, Merchants and Miners of Cassiar, beg to express our regret at your removal from the office of Recorder of this District, and to tender you our thanks for your uniform courtesy, attention and obliging disposition in the discharge of your official duties while an incumbent of that office.

Wishing you every success in your new sphere of life, and reiterating our regrets at your removal,

We remain yours, very truly,
